When you click on Training 2017 a drop down box will appear, select the sports they have trained in and they will appear on the right hand portion of the census "Trained but not competed"

If your game is not set up in GMS you need to complete this portion, or if you train and do not attend an invitational, regional or state event that is set up in GMS.

Any competition that is registered through GMS will appear on your census already.
